

Purestat Foam Swab

Description

Purestat® Foam swab are excellent swab for cleaning HDD components, optics, medical device or vacuum equipment. Its Purestat® foam swab head construction provides good particle and residue removal without any abrasion. Unique thermal bonding and cleaning process ensure a minimum of particle shedding from foam seal. The handle is made from a patented Inherently polymer to provide clean, permanent protection without contributing particulate contaminants to the cleanroom.

Features

- ◆The foam head has a good water and liquid absorption.
- ◆Thermal bonding head, no chemical bond contaminations.
- ◆Available for cleaning small slotted and grooved areas.
- ◆Low particle generation and less contaminated ions.
- ◆No silicone oil, amide, DOP, etc.
- ◆Low nonvolatile residue.

Application

Cleaning with solvents such as IPA, lubricants and other liquids; suitable for cleaning electronics components, keyboard, etc.
