

# STAT-MAT

## Anti-Static Cleaner For Conductive Mats and Hard Surfaces

Stat-Mat is specifically designed for cleaning and maintaining a broad range of static dissipative surfaces. Regular cleaning and detergent compounds destroy the static dissipating properties of highly specialized conductive mats, rendering static control maintenance programs ineffective. Stat-Mat removes dirt and soil while maintaining or increasing static dis-

sipative properties. This product is effective on all types of ESD control matting and hard surfaces such as work benches, storage racks, and countertops. Stat-Mat may also be diluted and used to clean computer screens, computer cases and plexiglass surfaces. Environmentally safe, it is non-corrosive, non-flammable, and biodegradable.

### APPLICATION & MAINTENANCE

For anti-static matting or anti-static hard surfaces, simply spray on Stat-Mat and wipe with a clean, low lint wiper.

For computer screens and acrylic surfaces, Stat-Mat should be diluted 1:4 with water. Spray on diluted Stat-Mat and wipe with a clean, low lint wiper.

### SPECIFICATIONS

|                          |                                      |
|--------------------------|--------------------------------------|
| Active Ingredients       | Anti-static and quaternary compounds |
| Electrostatic Decay Time | 0.1 Seconds                          |
| pH                       | 8.5 - 9.5                            |
| Free Ammonia             | None                                 |
| Free Alkali              | None                                 |
| Free Acid                | None                                 |
| Phosphates               | None                                 |
| Abrasives                | None                                 |
| Color                    | Light Blue                           |
| Odor                     | Mild Detergent                       |
| Solubility in Water      | 100%                                 |
| Freeze/Thaw Stability    | Minimum 3 cycles                     |
| Shelf Life               | 1 year minimum at room temperature   |
| Flash Point              | >220°F                               |
| Weight Per Gallon        | 8.3                                  |
| Biodegradable            | Yes                                  |
| Soil Suspension          | Good                                 |
