## ESD PU TOP FIT GLOVE

מקטים:

30205020=S

30205021=M

30205022=L

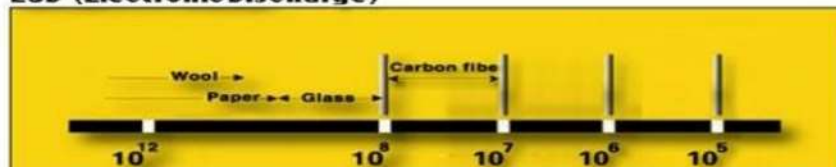

30205019=XL

Polyurethane coating in combination with nylon liner provides excellent sensitivity and abrasion resistance, breathable back,

comfortable gripe, and the surface resistivity is under  $1 \times 10^8 \Omega$

**ESD (Electronic Discharge)**

ESD knitted glove with dissipative carbon filament and polyurethane (PU) coating on the finger tip sections, ideal for handling electronic parts.

### Features:

- Color: Natural light grey carbon liner with white coated fingertips
- Material: 80% Nylon and 20% Carbon, PU (Polyurethane) Finger tip Coating
- Surface resistivity:  $1 \times 10^6 - 8 \Omega/\text{cm}$

### Feature:

1. The finger surfaces have polyurethane coating for nonslip grip, facilitating delicate assembly work.
2. Nylon mixed with carbon liner, up to a surface resistivity of  $1 \times 10^8 \Omega$ , provides superior dexterity and sensitivity
3. The back of the glove is breathable and provides comfort for long time using.
4. Washable and economical.

### Application:

Electronics assembly

Computer assembly

Automotive assembly

Small parts handing

Quality checking

### Specification:

Material: Carbon yarn 20D + Nylon 280D, Polyurethane
