**Advantages of our Hanstar Titanium alloy Solder Pots to your benefits:**

- LOWER COST, BUT BETTER QUALITY than traditional brands.
- More Durable Titanium alloy Boiler Pot, Longer Life Span of Heating Element & Pot
- 1 year Warranty for the Whole Unit including the Boiler Pot (3 months for the heating element)
- The boiler pot & the heating element are consumable parts. Though our Titanium Alloy Solder Pot Boilers are built to be durable & are expected to last for Many Years of operation, & our Heating elements are expected to last for at Least 2 years, eventually, after many years of operation & operator abuses, they will need replacement. In this regard, you can be sure replacement boiler pots & heating elements are always available from us at low price.
- We can manufacture OEM & custom size Solder Pots in 3 to 5 days ARO that we can delivered 7 to 10days.
- Always with stock for ASAP delivery.

**HANSTAR Mini soldering pot with Stainless Boiler Pot  
-Also available in Titanium alloy Boiler pot**

Item no.	Power	Maximum Temp.	Melting time Set @ 350 °C	Solder weight	Pot size
Hanstar 360A	100W	480 °C	19min	0.3KG	Ø 36mm x 40mm
Hanstar 350A	200W	480 °C	20min	0.5KG	Ø 50mm x 40mm
Hanstar 380A	300W	480 °C	23min	1.6KG	Ø 80mm x 40mm
Hanstar 310A	400W	480 °C	25min	2.2KG	Ø 100mm x 40mm

1. New design, mini size, easy to place and space saving.
2. High precision stainless pot or titanium alloy pot
3. Quick heating, shorten melting time.
4. New insulation material, close off peripheral temp. effectively.

**NOTE:**

*The 3 prong plug is important for grounding & proper operation of the item.*

*Don't modify it, it will invalidate the warranty.*

*Pls use 3 prong plug AC outlet.*

*If your AC plug outlet is 2 prongs, pls ask certified electrician to change it to 3 prong.*
