

Hot Air Station #ST-862D

High power 1000watts,
heating up so fast

Built-in brushless fan,
strong wind and long lifespan

Magnetic-control stand, auto-sleep
when putting handle on the holder

3sets of preset temperature/air,
can be saved and retrieved rapidly

Automatic strong cooling wind,
prolong lifespan of heater

Pluggable heater,
easy to replace new one

Features about ST-862D

Standard 4pcs of Nozzel

B2610 Spiral wind ϕ 10mm
B2608 Spiral wind ϕ 8mm
A2608 Straight wind ϕ 8mm
A2605 Straight wind ϕ 5mm

	Air Flow	Actual temperature	Suggested users
Difference	Strong wind	Little lower than display temperature	New for maintenance
	Stronger wind	Equal to display temperature	Much experience for maintenance

Pluggable heater, very convenient to be replaced

Brushless fan, strong wind and prolong life

Easy to change nozzle

Specification about ST-862D

Item Model	ST-862D
Item Name	Hot Air Station
Power	1000W
Voltage	110V/ 230V(Optional)
Temperature Range	100°C-480°C
Air Flow Range	20L/min-130L/min
Temperature Calibration	±50°C
3 sets of preset temperature/ air flow	Support
Standby Heating Cooling Function	Support
Fuse type	T6.3A
Application	Widely used for electronic production line, education and communication maintenance
