

BK-808A Wire Cutting and stripping

Precise low-cost machine for round wire processing up to 6mm²

Feature:

- ◆ Computer chip control, key board operation, high-speed wire stripping
- ◆ Can set the cutting length,stripping length
- ◆ Sealed gear box, 12mm thick drive shaft, 35mm diameter wire feeding roller, stable wire feeding.
- ◆ Durable and low failure rate

Technical Data

Model	YS-BK-808A	
Outer dimensions	L452mm*W410mm*H435mm	
Weight	31kg	
Power supply	220V or 110V	
Display	LCD	
Power consumption(220V)	450W	
Cutting length	1mm--9999mm	
Stripping length	Front:0-30mm,end 0mm--30mm	
Tolerance	(0.002xLmm*L	
Applicable wires	PVC and Teflon wire, glass wire,1015,1017,PVC,XPL spring wire,RG174 ,etc	
	Size	0.1-6 mm ²
Middle strip and cut position	10 positions max	
Steel materials	Hard tungsten steel	
Drive supply	four-wheels drive, independent drive box driver	
Productivity(pcs/min)	2000-8000pcs/hour	

Application:

Cutting

Precision cut

Full strip

Half strip

Sample :
